

POST-PROCEDURE DISCHARGE INSTRUCTIONS

Patient: Sarah Mitchell

DOB: June 15, 1985

MRN: CTX-2024-001

Procedure Date: February 28, 2026

Discharge Time: 3:45 PM

Physician: Dr. Jennifer Martinez, MD

PROCEDURE PERFORMED:

Colonoscopy with biopsy

FINDINGS:

- Colon visualized to cecum
- 2 small polyps removed from sigmoid colon
- Biopsies sent to pathology
- Otherwise normal examination

ANESTHESIA:

Moderate sedation (Fentanyl and Midazolam)

DISCHARGE INSTRUCTIONS:

ACTIVITY:

- Do not drive or operate machinery for 24 hours
- Do not make important decisions for 24 hours
- Rest for the remainder of today
- Resume normal activities tomorrow if feeling well
- Must have a responsible adult with you for 24 hours

DIET:

- Start with clear liquids today
- Advance to regular diet as tolerated
- Avoid alcohol for 24 hours
- Stay well hydrated

MEDICATIONS:

- Resume all home medications
- Take acetaminophen (Tylenol) for mild discomfort
- Avoid aspirin and NSAIDs for 7 days

WHAT TO EXPECT:

- Mild bloating and cramping is normal
- May notice small amount of blood in first bowel movement
- Drowsiness from sedation may last several hours
- Resume normal bowel habits in 1-2 days

FOLLOW-UP:

- Biopsy results will be available in 5-7 days
- Office will call with results
- Schedule follow-up appointment in 2 weeks
- Next colonoscopy recommended in 5 years

CALL YOUR DOCTOR OR GO TO ER IF:

- Severe abdominal pain, fever >101 F, heavy rectal bleeding, vomiting, severe dizziness, or chest pain
